Apply for this Credential

<b>Description</b>
<p><b>**NOTE**</b>  <i>The CM credential is currently undergoing updates. As a result, FAI has temporarily paused the credential.</i></p> <p><i>We are actively working on revisions and anticipate a refresh in the coming months. Current participants will be automatically migrated to the updated credential once available. In the meantime, <a href="#">alternative CM training options remain accessible.</a></i></p> <p><i>More details will be shared soon. Thank you for your patience as we work to ensure the training remains relevant and effective.</i></p> <p>Upon successful completion of this credential, participants will acquire the ability to proficiently identify the concepts, principles, and functions integral to category management. This introductory-level training asset has been meticulously crafted to provide a comprehensive foundation for the category management community. The program delves into essential aspects such as processes and practices, governance and regulatory structures, and fundamental terminology. It is tailored for individuals with limited or no prior experience or exposure to category management, ensuring a solid initiation into this field.</p>

<b>Target Audience</b>		
Category Management targets federal agencies, departments, and individuals involved in procurement. It aims to enhance efficiency, standardize processes, and foster collaboration between the government and industry partners for improved overall procurement effectiveness.
