Questions

Want to provide feedback? Join us for a usability session by emailing: ***gateway@gsa.gov***

**New Gateway Features /
Coming Soon!**

- **Customize your IGCE labor rate:** You spoke - we listened! You can now customize the CALC rate you input for the labor category in the IGCE tool. This should help make those pesky IGCE's a little more manageable.

- **Manage the frequency of your email notifications:** Too many emails? You are now able to manage the frequency of your email notifications with the option for a daily digest instead of immediate. To find this feature, log in, navigate to the nav bar under your profile picture and select 'Manage Notifications'.

- **404 / 401 error message UI:** New and improved content is now visible when you land on either a 404 or 401 error message. Hopefully, this content will help you better find what you were looking for and bring a smile too! We don't want you to have a 'ruff' day when using the Gateway.
- **Enhanced IGCE export:** When downloading your IGCE, you'll soon be able to see 'behind the curtains' on what formulas were used to calculate your values.

Coming Soon - Sneak Peek!

- **Earn CLPs:** Looking to enhance your knowledge while earning CLPs?! Soon you will be able to read select articles, take a quiz, and voila earn CLPs. We can't think of a better win-win situation for you.
- **Follow a Hub or Hallway:** Want to know when new articles are added or information is updated in a Hub or Hallway of interest? Well soon, you'll be able to 'follow' Hubs or Hallways and those updates will appear in your Community Newsfeed page.
- **Notifications Icon:** Be on the lookout for a new icon in your nav bar! You'll start to see your email notifications consolidated into a drop down from the nav bar for easy access.

ADDITIONAL RESOURCES

FAS Acquisition Policy Library

The Federal Acquisition Service (FAS) Policy Library is the central repository for storing all FAS acquisition policies, as well as other policy guidance and information.

About Category Management

Category management is a strategic business practice that the Federal government is implementing to buy smarter and more like a single enterprise. The goals of government-wide category management are to: Deliver more savings, value, and efficiency for Federal agencies, eliminate unnecessary contract redundancies, and meet the government's small business goals.

Sign Up for Live DPA Webinar on the Building Maintenance and Operations (BMO) Strategic Sourcing Solution.

Thursday, January 24, 2019 (1:00 PM - 3:00 PM - EST)

Location: This webinar will be broadcast live.

Description:

Join us for this convenient, information-packed Delegation of Procurement Authority (DPA) webinar to learn about the BMO strategic sourcing solution and start using it! You can earn two CLPs for attending.

The BMO solution:

- Is comprehensive and flexible
- Covers an array of high-demand services: HVAC maintenance, electrical maintenance, janitorial services, grounds maintenance, and many more
- Is an open-market, multiple-award indefinite-delivery/indefinite-quantity (MA-IDIQ), governmentwide contract vehicle

Attend this event if you're a:

- Contracting Officer (each warranted CO may be issued a DPA and then authorized to use the BMO contract)
- Contracting Officer's Technical Representative (COTR)
- Federal technical expert
- Federal employee who works with building-maintenance contracts

There is no charge for this training. To register, you must have a .mil or .gov email address. This event is open to government employees only.

Register today!

If you have questions about this event, contact Mary Snodderly at mary.snodderly@gsa.gov or (816) 926-6750.

IGCE Tool

 IGCE (Independent Government Cost Estimate)[Hide Welcome Message](#)

Independent Government Cost Estimate

Welcome to the Independent Government Cost Estimate (IGCE) creation tool! If you are new to this tool, enjoy! If you have been here before, please note significant upgrades have been made as of June 2018. All of your files should still be here and to use them you will need to edit them, make any needed changes to match the new format, and most importantly, save the file again to match the updated structure. What's new? In addition to using fully loaded labor rates from the CALC Tool, you can now easily build up your own labor rates by selectively adding indirect costs to base labor rate(s) you enter yourself. Also, you can now selectively add indirect rates to nonlabor items (e.g. travel, materials), including the addition of a Materials & Subcontract (M&S) rate. All of these new capabilities are fully exportable into an Excel worksheet for further customization to match your specific procurement scenario. And in case you missed this feature, a complete audit trail is downloadable for any CALC rates used in creating an estimate. Comments or questions? Post your thoughts and suggestions in our Community App [here](#).

Established by OMB, the IT Workstations Category Team developed Government-wide Strategic Solutions (GSS) for desktops and laptops. Using the configuration details in the GSS workstation specifications and pricing data from legacy Version 2 (V2) and new Version 3 (V3) we created the Laptop Desktop Finder to help acquisition professionals make pricing and market research evaluations. Compare workstation specs and explore how memory, OS, and accessory selection impact configuration prices.
